

6 Month Junior Data Analysis Internship

DATDA0311

PLEASE READ CAREFULLY BEFORE CONTINUING.

ESPA or European Student Placement Agency is a recruitment agency whose goal is to find high quality internships for European students and recent graduates in the UK. We work closely with our host companies to ensure the positions provide the candidates with a great experience, both professional and personal.

REQUIREMENTS: ESPA vacancies are open to all EU passport holders able to travel to the UK for an educational work placement, without the need for visa documents. You have to still be a student or have graduated in the last 12 months. Any student who is unsure of their visa situation should check with their university before applying.

BENEFITS: All ESPA's services are **free** for students and alumni. The benefits are:

- 1) Paid Accommodation.
- 2) Paid Utility Bills (electricity, gas, water and council tax) + Internet Access
- 3) Commuter travel to work (accommodation will be found within an acceptable commuting distance from the workplace, if that requires more than a sensible walk then a bus/train ticket will be provided).

This will be sourced and managed on your behalf by ESPA. **These benefits have an approximate value of 700€-1000€ per month (depending on location).**

There is no salary over and above the benefits offered, unless specifically stated.

The Host Company

This company provides class-leading data quality and matching software to the capital markets, healthcare, government and supply-chain industries. It has enjoyed industry recognition as a visionary within the Gartner Magic Quadrant for Data Quality Tools since 2007 and was described by Bloor as the most interesting company in this market right now.

Role

The role is to work under supervision of Head of Data Analysis to plan and execute data analysis projects, ensure accurate technical specifications and to deliver projects according to accurate timelines. This is not a programming role.

Duration

6 months.

Location

Belfast is the capital and largest city of Northern Ireland. With a population of 300 000 it is a very dynamic city.

Languages

Good written and spoken English (B2/C1).

Start date

January 2016.

Tasks

- Collaborate with sales and project management in defining data quality demo's and prototypes. Design, implement and test significant demonstration projects for these clients in the area of data quality using the company's 'FlowDesigner' and DQM product sets as well as other tools. These demo projects will specialise in the area of capital markets reference data and compliance/risk technology.
- Build and support reference files relevant to our clients in investment banking, hedge funds and information vendors.
- Work closely with a client or prospect to understand the system's functional requirements and
- Software testing and documentation if required
- Deal with client support by email, phone and in person in order to support live and evaluation systems
- More general tasks as may be required by the company from time to time

Personal Skills

- Strong analytical skills.
- Presentation skills.
- Experience of SQL, Python, Data Analytics and Visualisation tools.
- Knowledge of Finance, Financial Regulation, Financial Technology, and programming is beneficial but not required.
